AI AUTOMATED WORKFORCES: THE FUTURE OF ENTERPRISE

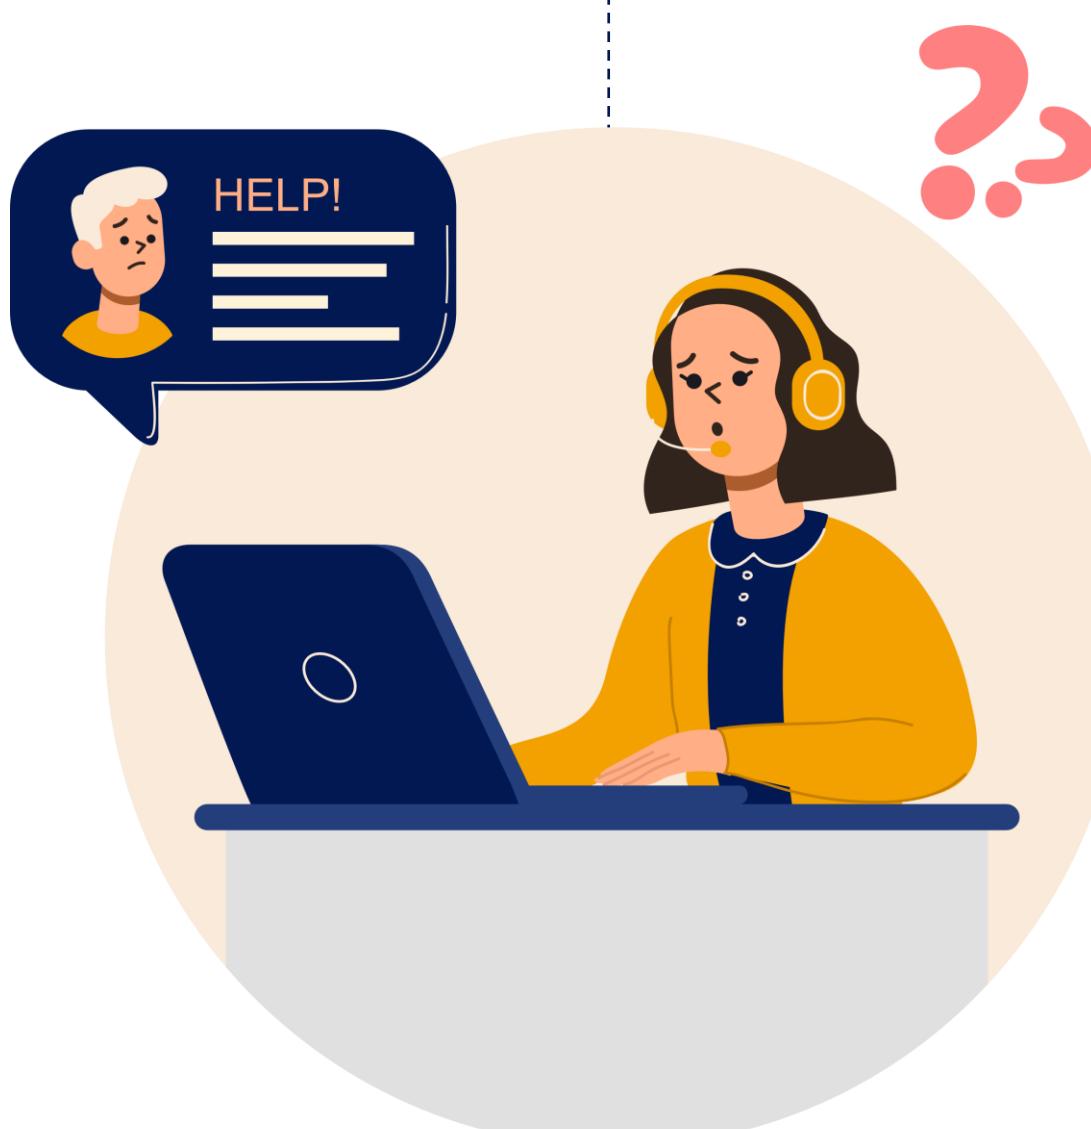

CURRENT METHODS ARE FAILING IN THEIR CONVERSATIONAL ABILITY AND ACCURACY...

*Hours long waiting
in customer care*

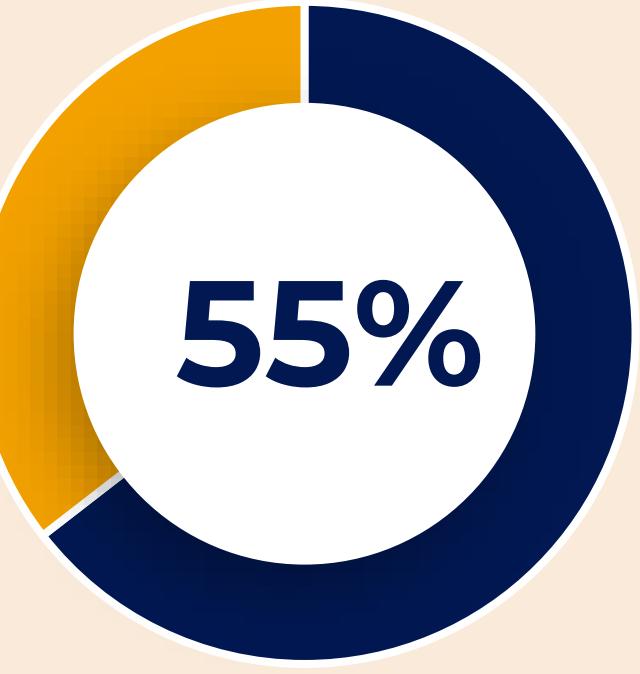

*Vague Inauthentic
Information*

"Your call is vital to us. Please hold while we connect you"

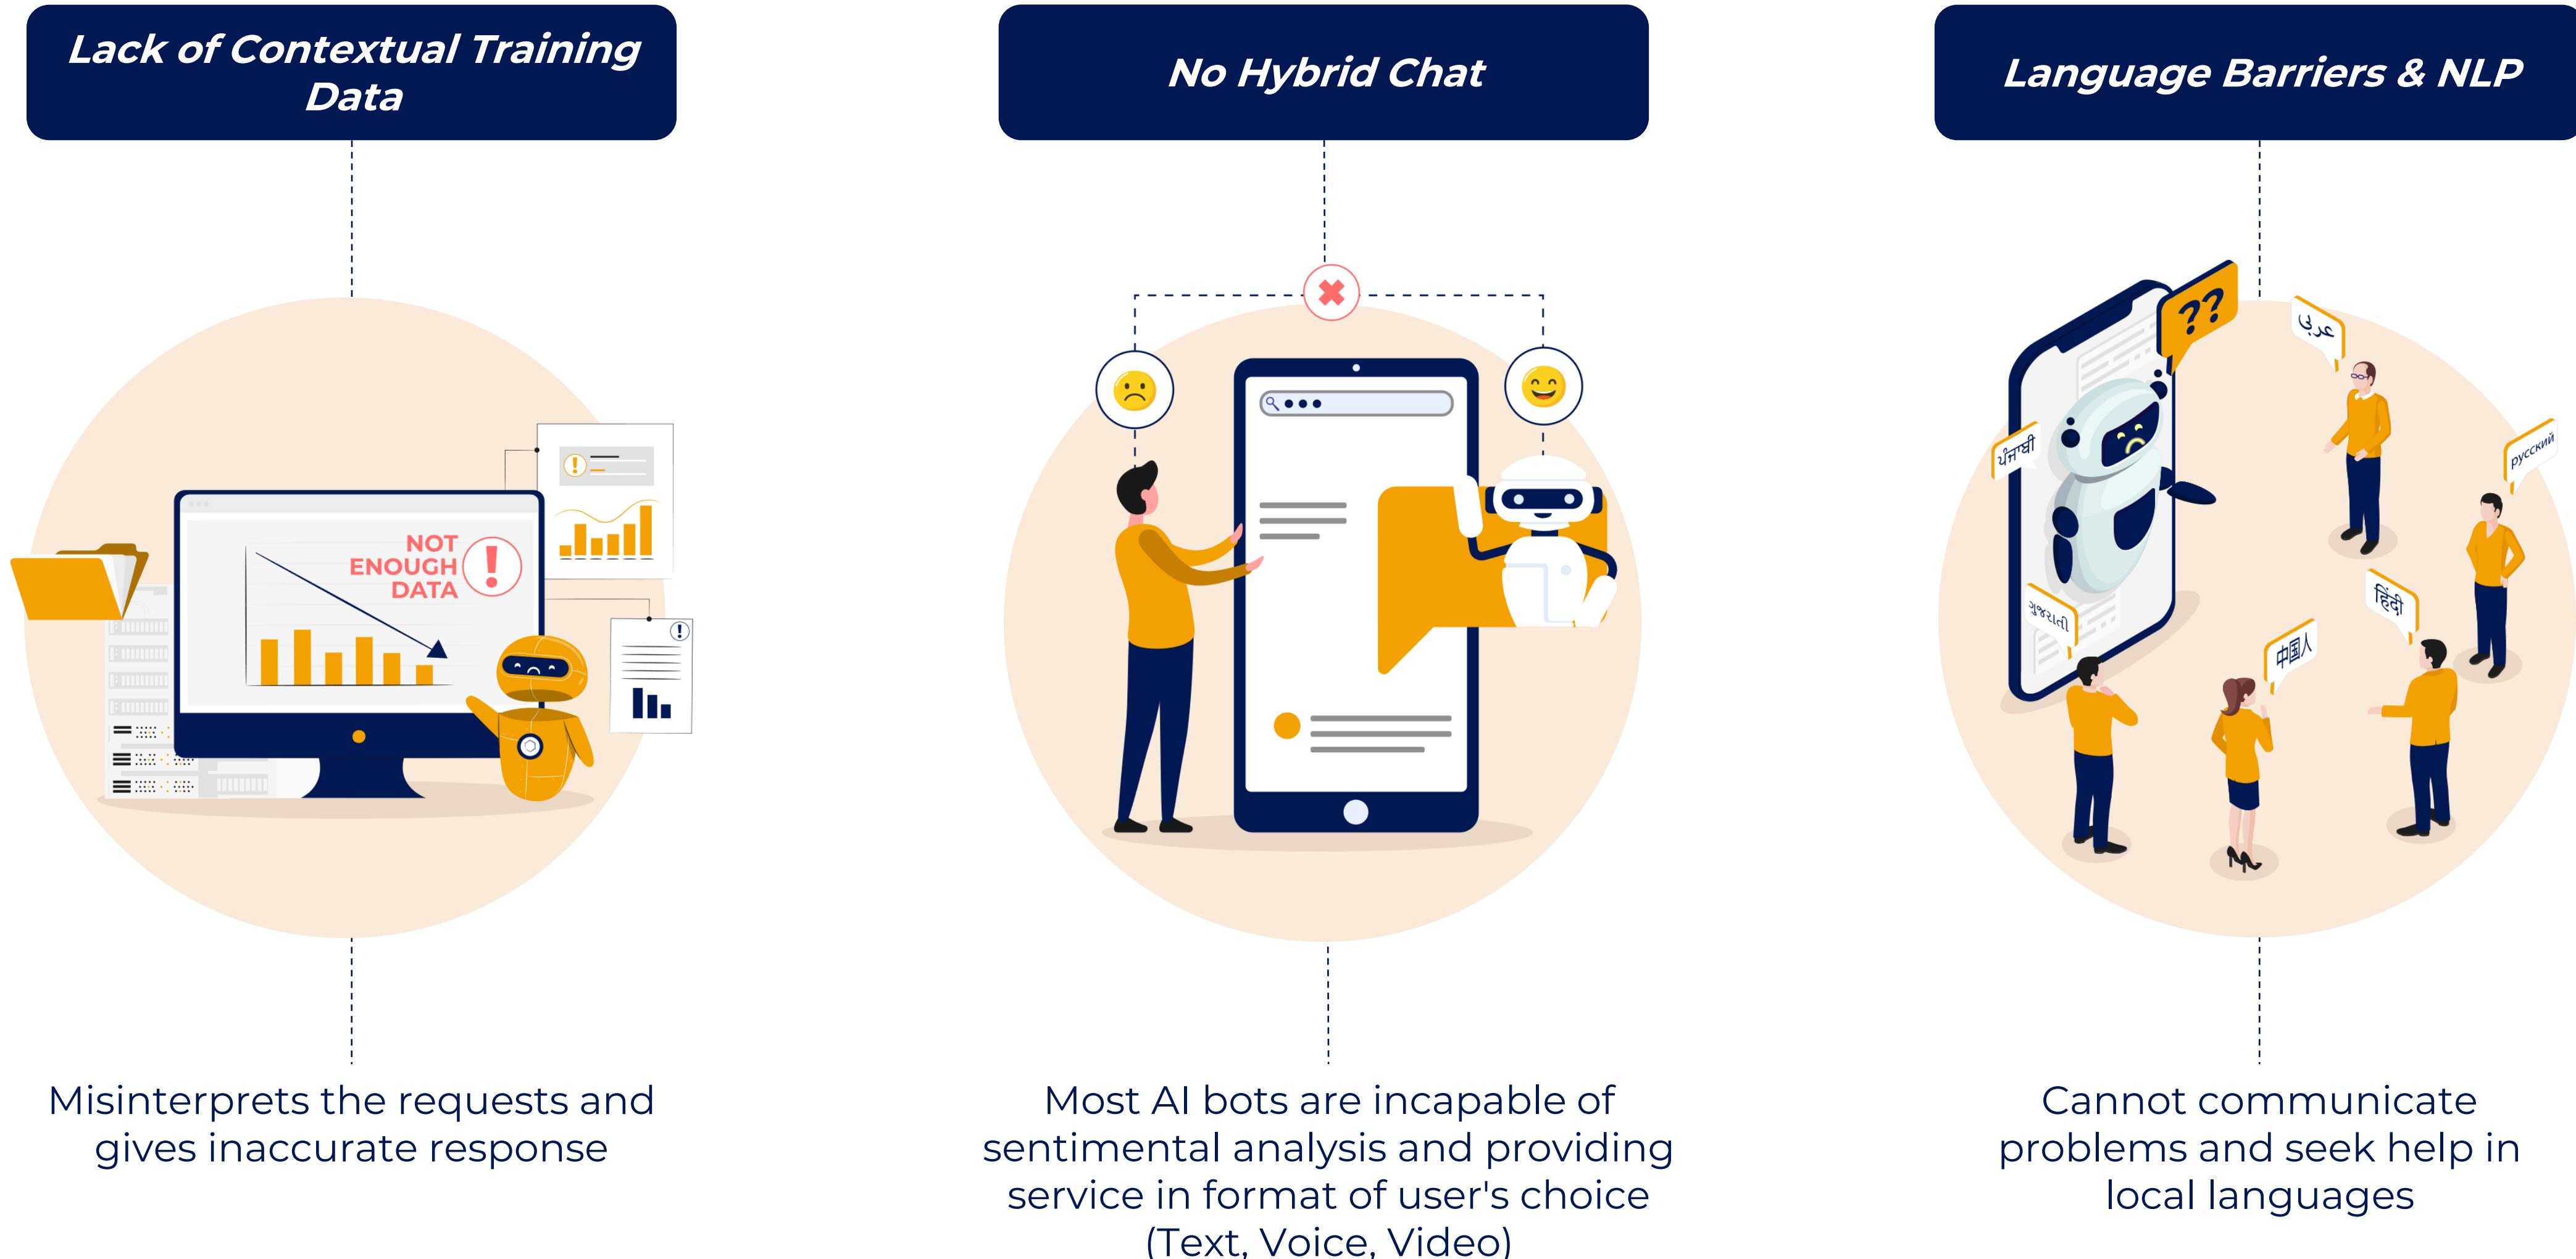

Customers hate automated messages.

60% customer service representatives don't have right data. Even search engine and social media have inauthentic information

55% of consumers have intended to make a purchase, but backed out because of **poor customer service**.

...AND MOST AI VIRTUAL ASSISTANTS DON'T OFFER RICH, HUMAN LIKE CONVERSATIONS NEEDED TO ENGAGE USERS

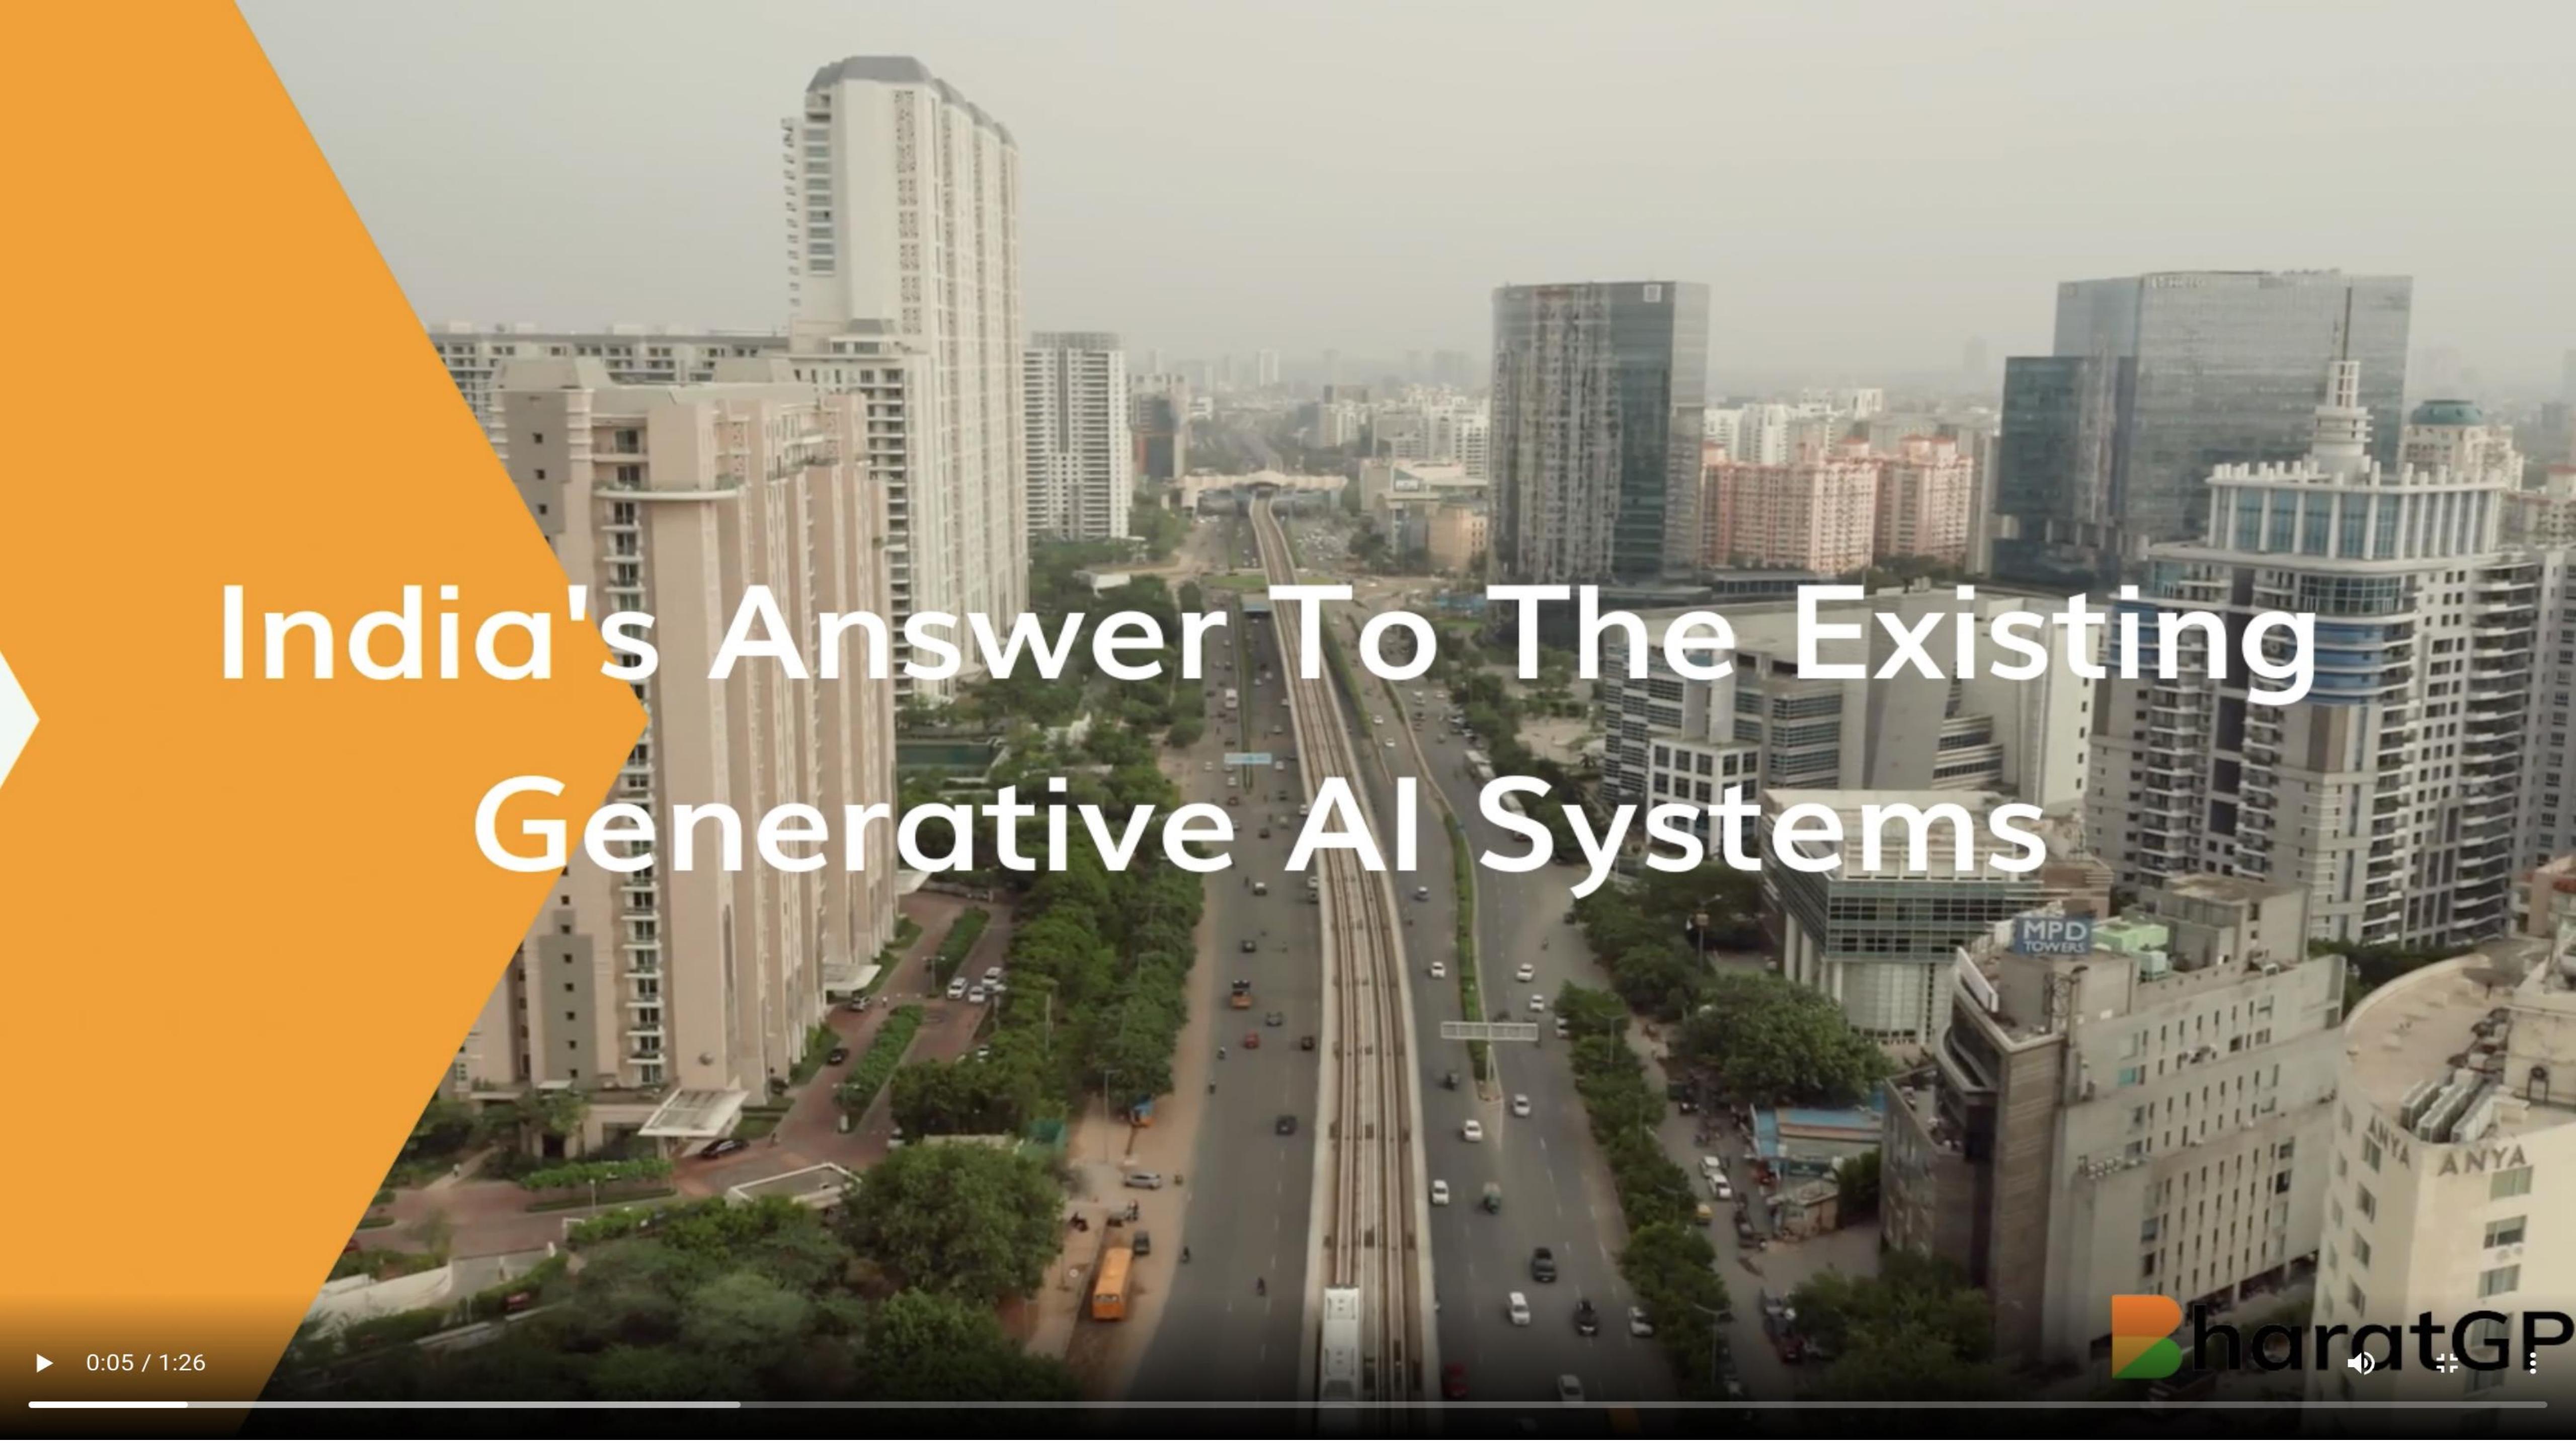

CoRover[®].ai

pharatGPT

CoRover's Large Language Model (Generative AI)

The background image shows a panoramic aerial view of a bustling city. In the foreground, a multi-lane highway with several cars is visible, flanked by green trees. To the left, there's a mix of residential and commercial buildings, including a prominent tall building with many windows. On the right, a dense cluster of modern skyscrapers and office buildings rises against a hazy sky. One building has "MPD TOWERS" written on its roof. The overall scene conveys a sense of urban development and technology.

India's Answer To The Existing Generative AI Systems

India is launching its own Generative AI (Large Language Model) in 12+ Indian languages, with generative text, voice and video

Highlights

1. Data remains in **the country**
2. Fine tuned for **target users**
3. Option to integrate with any **ERP/CRM system** and **APIs**
4. Inbuilt **payment gateway** for **real-time transactions**
5. **Dialogue/conversational** management tool
6. Omni-channel, multi-lingual (120+ languages), **multi-format** (text, voice, video)
7. **Generative AI Video**, interactive **digital twin**
8. Currently available for **organisations**

VIRTUAL ASSISTANT BUILDER

SELF SERVICE PLATFORM - VIRTUAL ASSISTANT BUILDER

The screenshot displays the CoRover.ai Virtual Assistant Builder interface. At the top, there are navigation links: BharatGPT (Gen AI), Test Bot, Configuration, Train Bot (Classic NLP), Small Talk, Generate Video, Add Substitution, Analytics, and Integrations. On the far right are buttons for DEMO BOT, HOME, and POWER.

The main area is titled "Train Chatbot" and contains the message: "You can train your chatbot by adding intents." A sidebar on the left lists intents under the heading "Intents": Types_Elections, What are the Types of Elections In India?, 1 General Elections These are held every five years to elect the members of the Lok Sabha lower..., General Elections in India, Local Body Elections in India, Rajya Sabha Elections in India, Vice-Presidential Elections of India, Presidential Elections of India.

The central workspace shows a conversation flow. The first message is "What are the Types of Elections In India?". Below it is a video player showing a person speaking. An "Add Elements" modal is open, prompting "Please select element for response." It lists several options: Response (Custom, Auto Response BharatGPTv1 By CoRover, Auto Response BharatGPTv2 By CoRover, Auto Response Bard / VertexAI, Auto Response ChatGPT For Videobot), Video, Button, and Link.

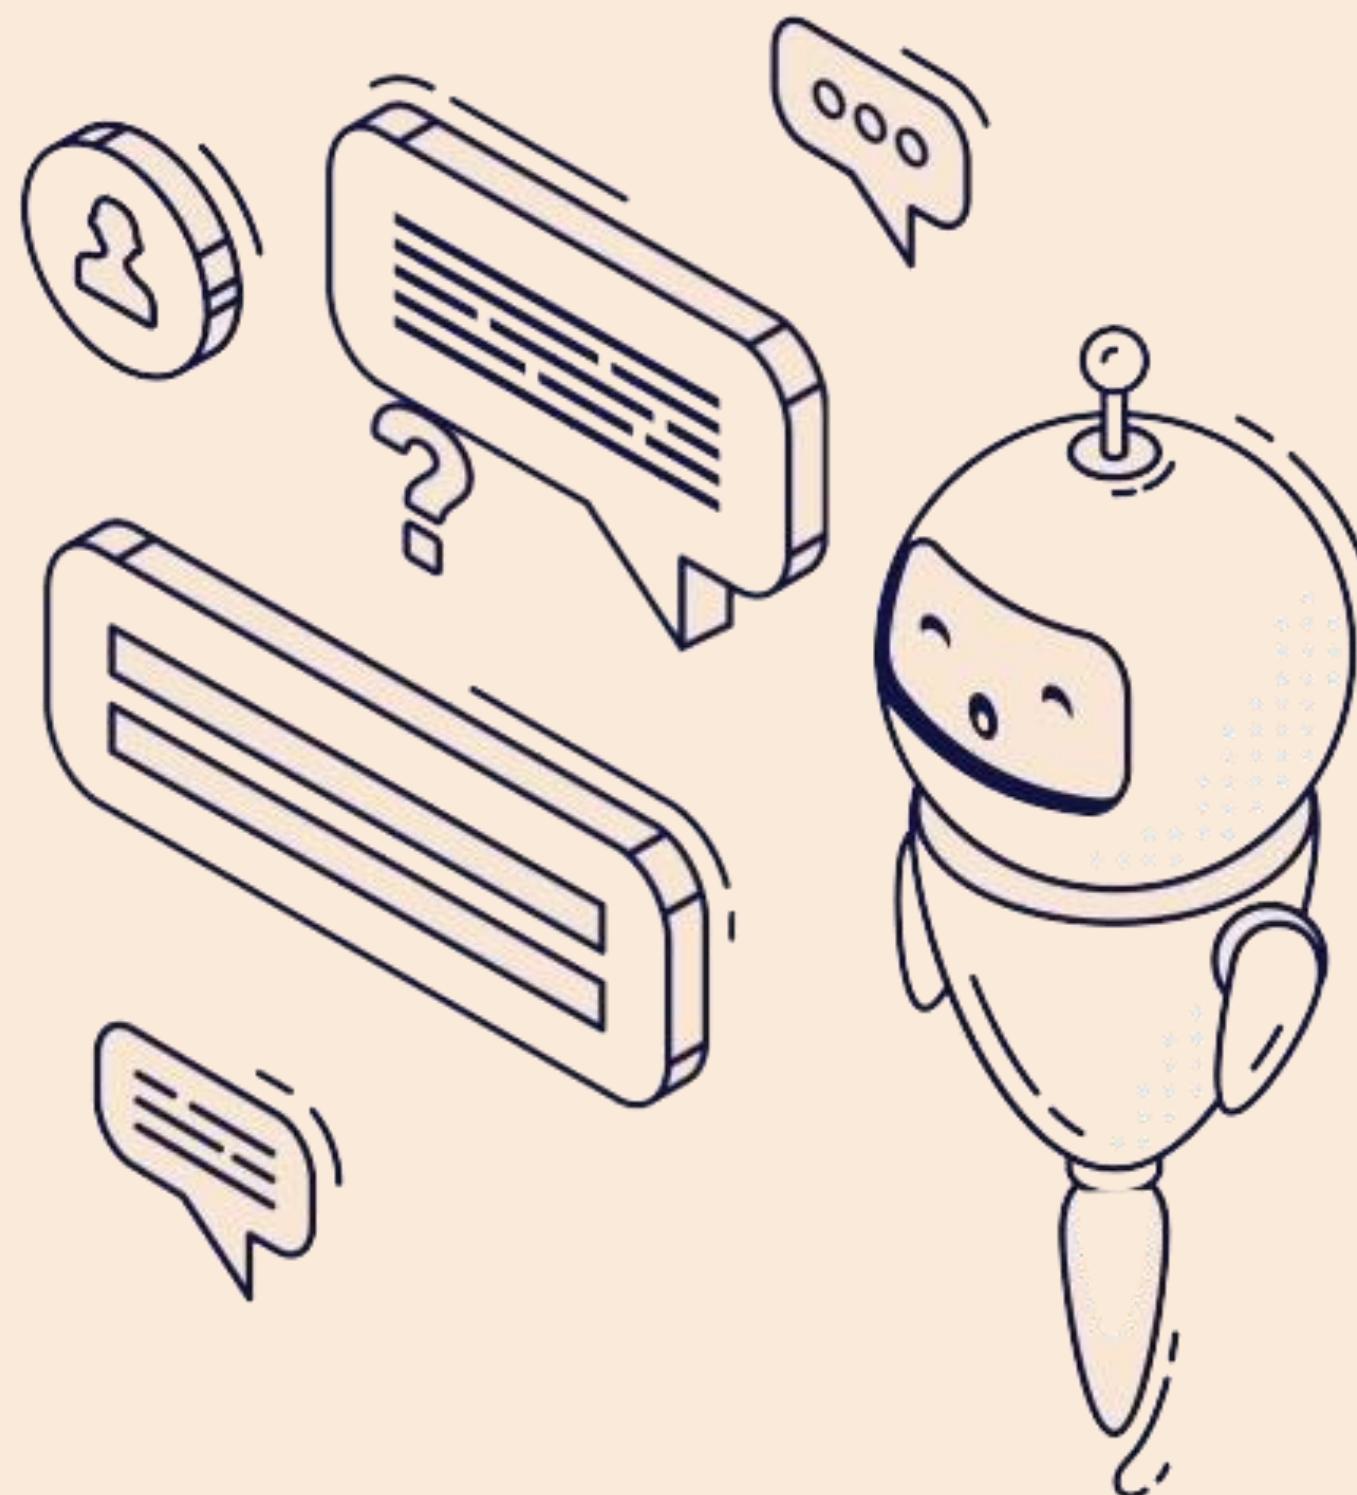

To the right of the workspace, the response "What are the Types of Elections In India?" is shown with a list of six types of elections in India:

1. General Elections: These are held every five years to elect the members of the Lok Sabha (lower house of Parliament) and the State Legislative Assemblies.
2. By-elections: These are held to fill vacancies in the Lok Sabha and State Legislative Assemblies caused by the death, resignation or disqualification of a sitting member.
3. Rajya Sabha Elections: These are held to elect members of the Rajya Sabha (upper house of Parliament).
4. Presidential Elections: These are held to elect the President of India.
5. Vice-Presidential Elections: These are held to elect the Vice-President of India.
6. Local Body Elections: These are held to elect members of local bodies such as Municipal Corporations, Panchayats, and Zilla Parishads.

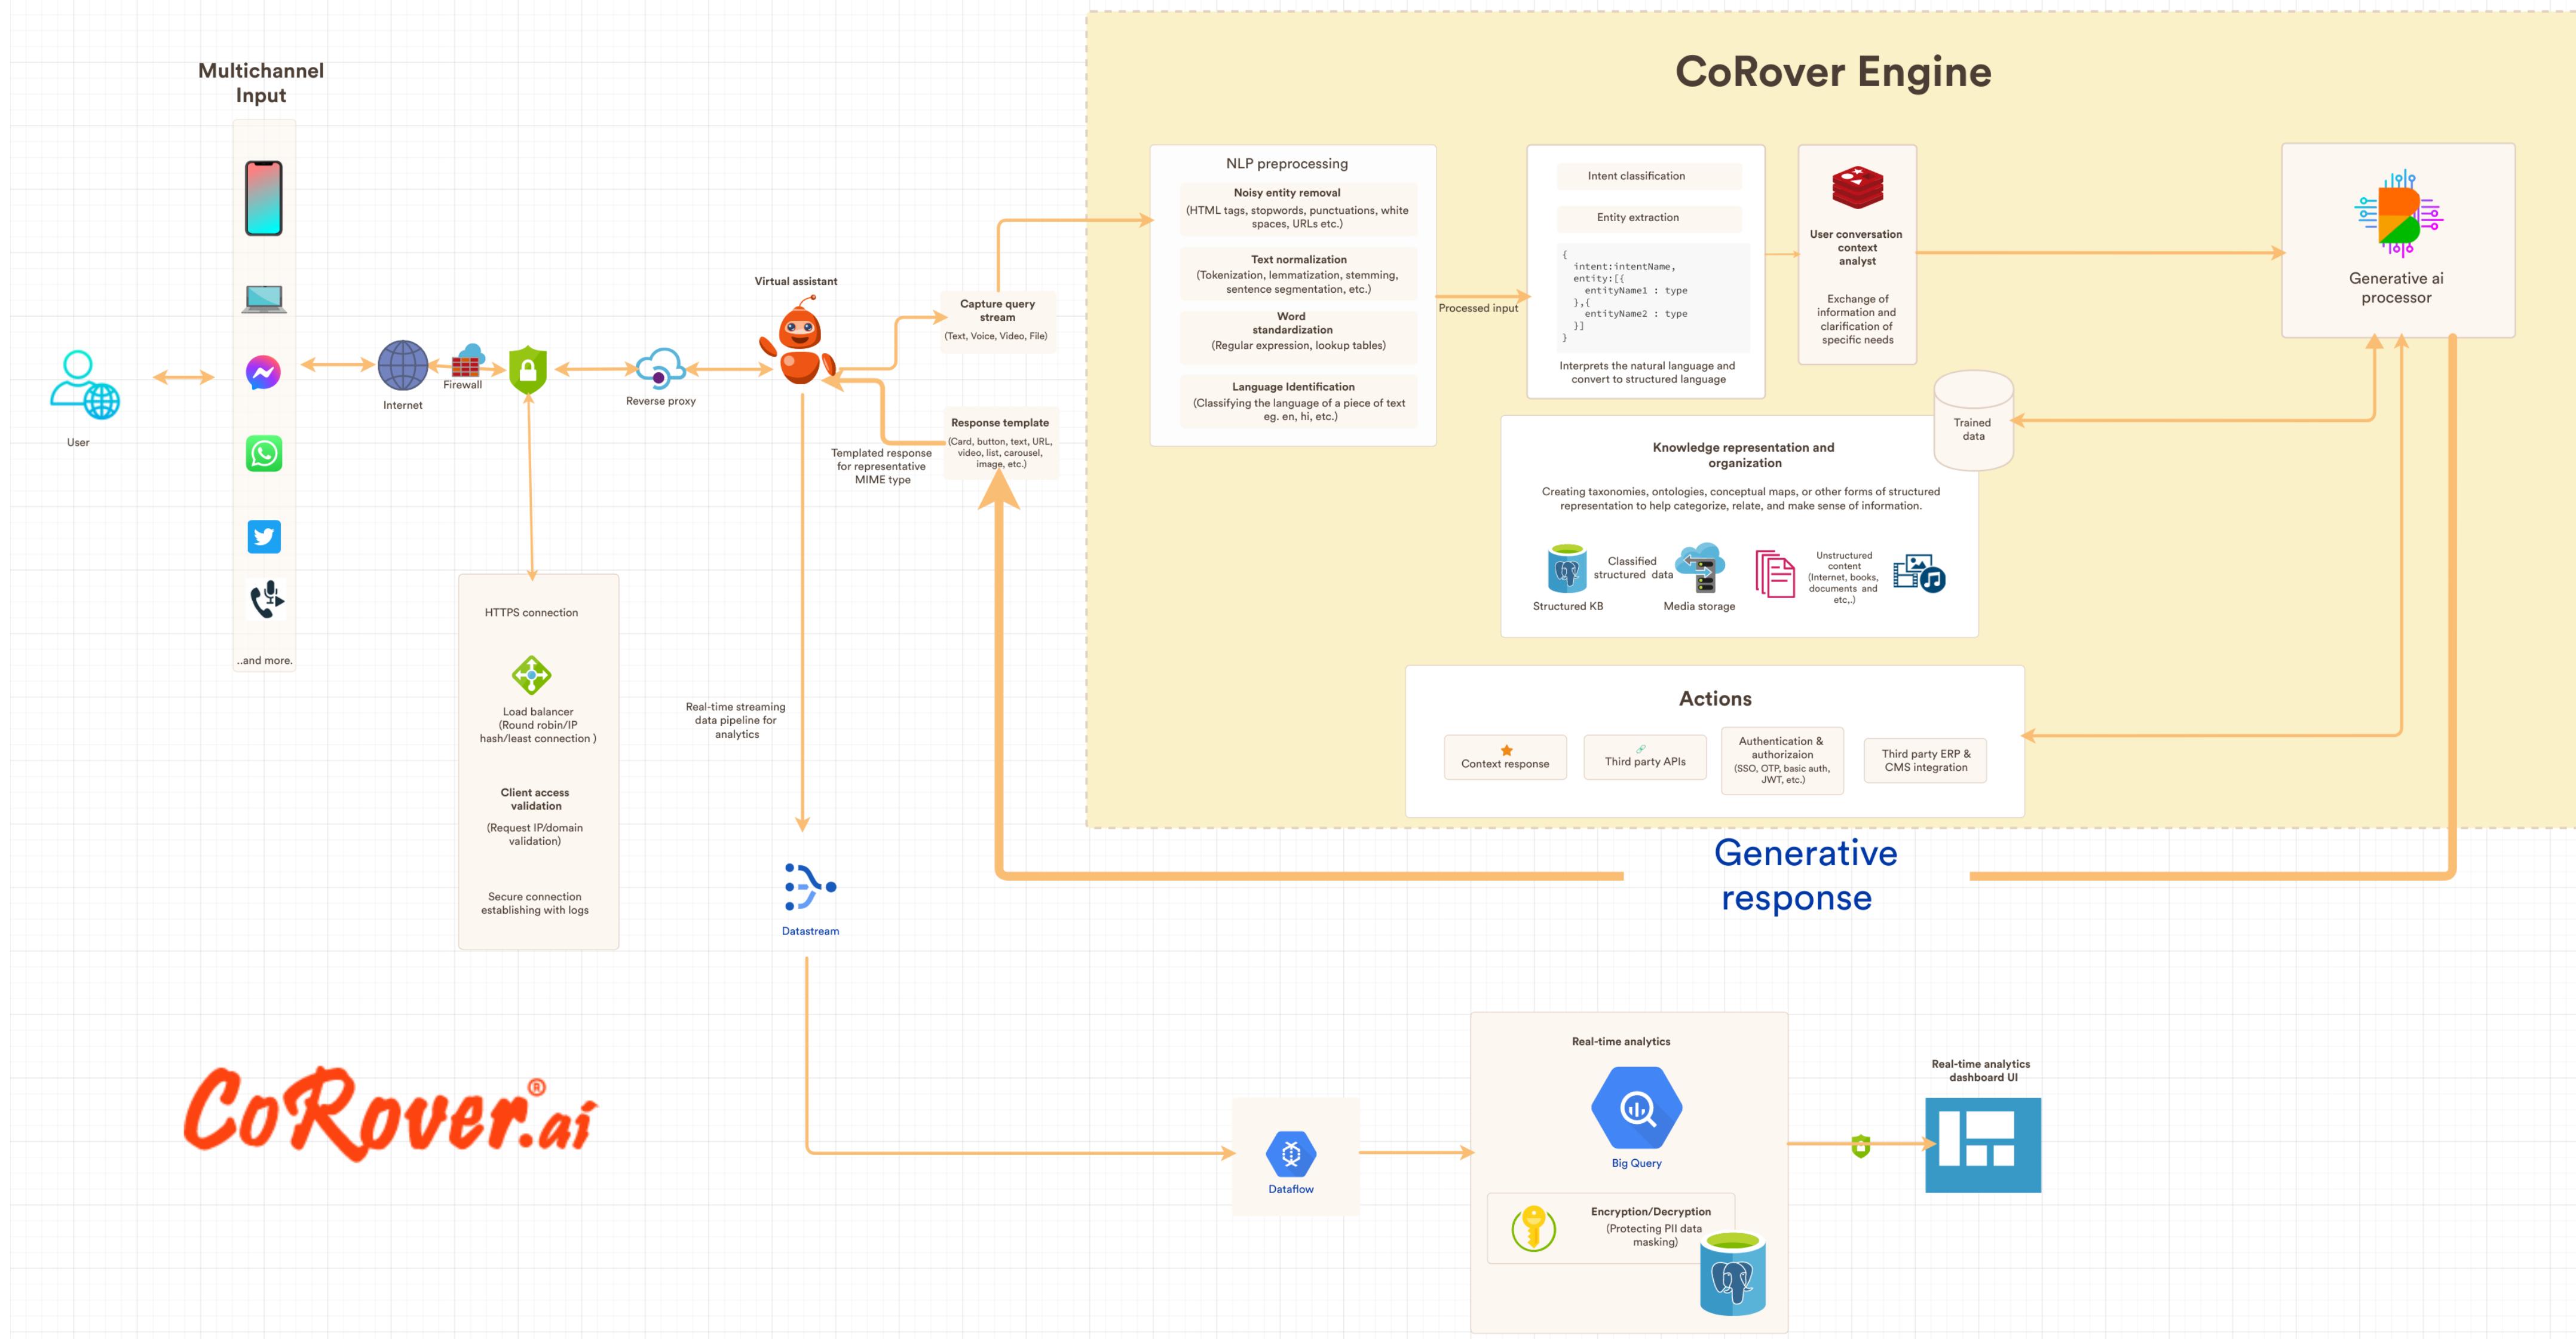

Below the response, there are buttons for "CREATE AUDIO" and "Buttons". A list of buttons is provided: General Elections in India, Local Body Elections in India, Rajya Sabha Elections in India, Vice-Presidential Elections of India, Presidential Elections of India. Each button has edit and delete icons. A "+ ADD ELEMENTS" button is located at the bottom of the buttons list.

At the very bottom is a large blue "SAVE INTENT" button.

TESTIMONIALS

We are thrilled to partner with CoRover to bring BharatGPT for the public sector in India. Technology truly has the potential to transform lives and our language and generative AI capabilities built into the platform will make access easy and democratise the use of the platform.

*Bikram Singh Bedi, managing director,
Google Cloud India*

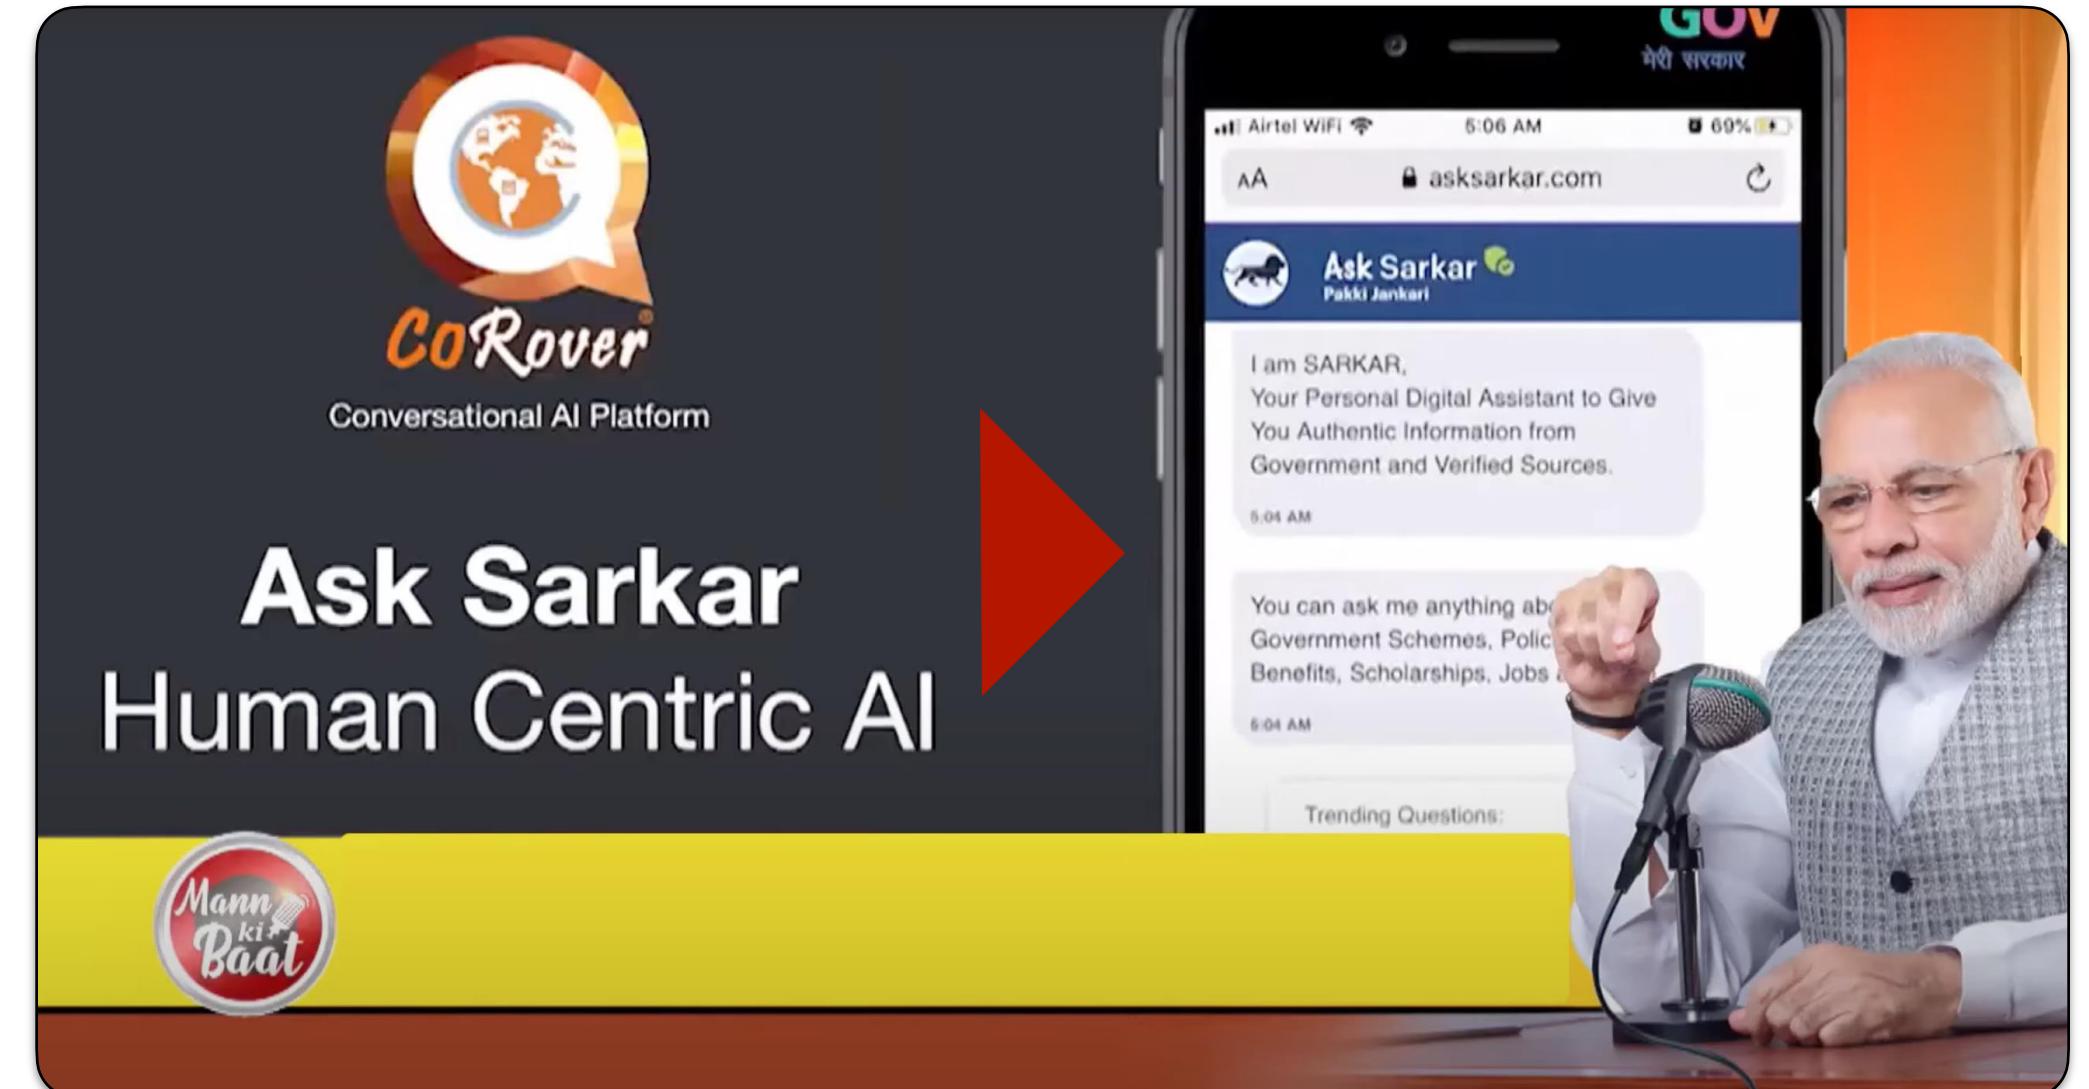

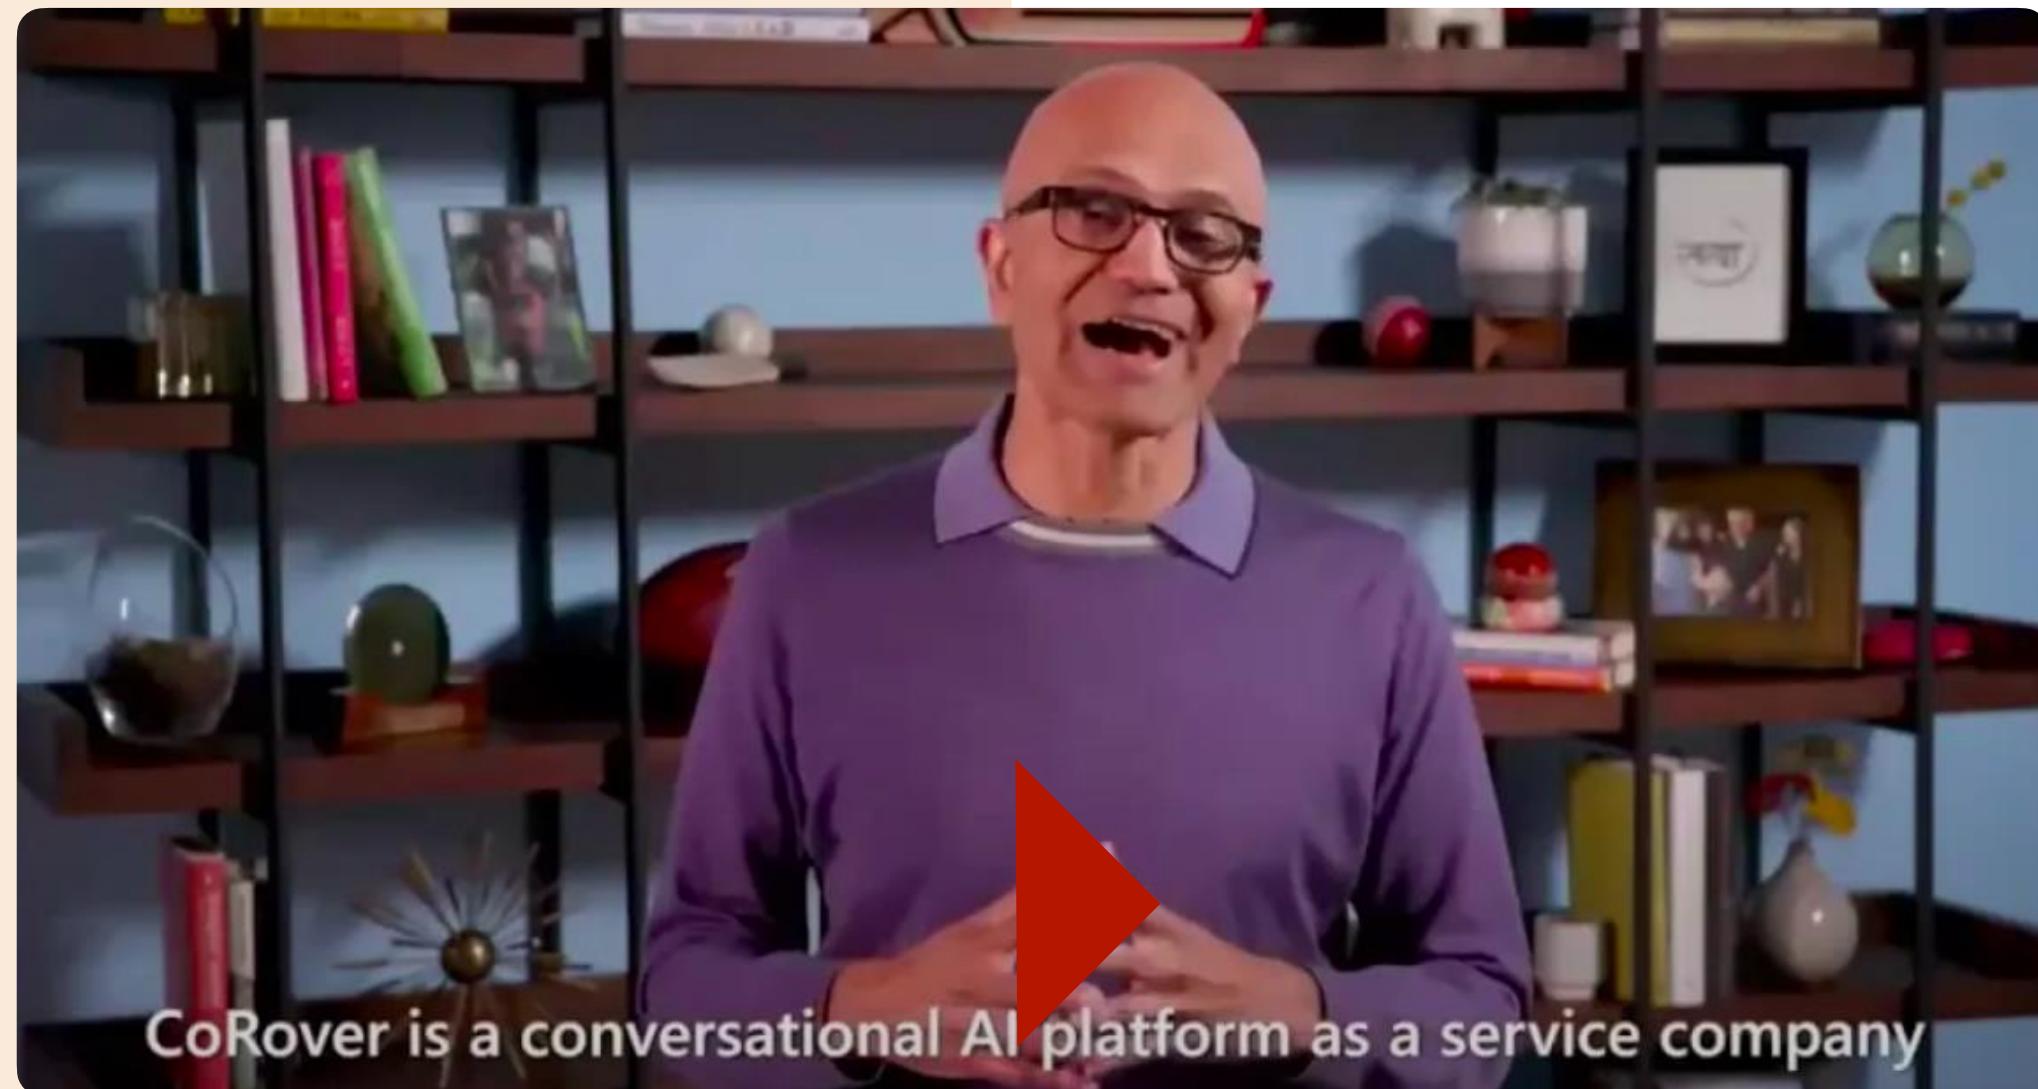

“AskYukimi a VideoBot created using CoRover’s Human Centric Conversational AI platform, has been a huge success in Japan. We have been fortunate to work with CoRover as a client and also as their partner”

*Hajime Suzuki
CEO of Innovation Hills Inc.*

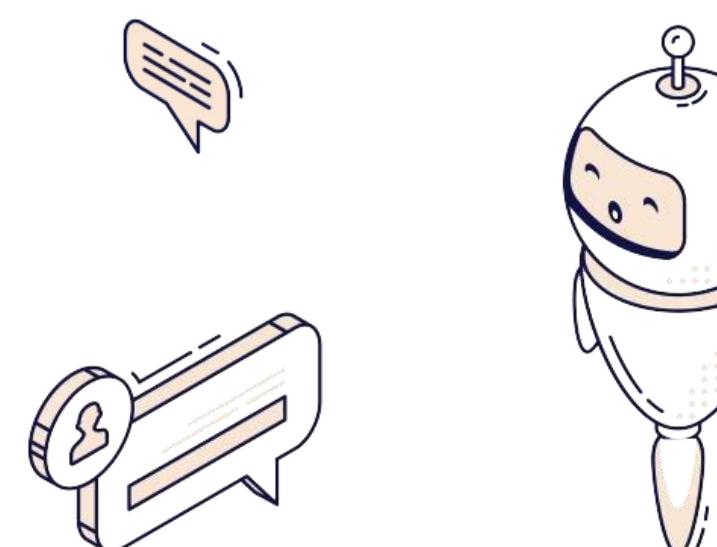

Chatbot, named Ask Disha, has great accuracy of 90% along with the approx. 85% positive feedback from IRCTC users and has improved customer and employee engagement.

*Sandip Trivedi
GGM, IRCTC*

& more
